Installation Information

Please read carefully...

- ✓ Perform a precise and perpendicular cut of the tube, free from burrs, using a special pipe cutter.
- ✓ Check that there are no traces of burr and waste inside the tube.
- ✓ Mount the elements that make up the fitting in the order and shown in the drawing below.
- ✓ Take the nut and screw it by hand until it is possible and then thoroughly with the appropriate key.
- ✓ It is absolutely forbidden to lubricate the rubber parts with mineral oils or greases: the epdm compound is compatible only with silicone based lubricant.

Suitable for use with Plastic and multilayer pipes
Max working pressure - 10 Bar / 145 PSI.
Max temperature - 95°C

Installation
